UnLimited Versatility: ASUS GraphiX Boost Technology for Switchable Graphics

The ASUS UL80Vt features a 14-inch high definition LED backlight display with a 16:9 aspect ratio, with graphics supported by GraphiX Boost technology. It allows users to maintain a balance between surreal graphics performance and battery conservation. The ASUS GraphiX Boost allows users to switch between a dedicated NVIDIA® GeForce® G 210M graphics card for graphically intensive applications, and Intel® integrated graphics options for better energy savings.

UnLimited All-day Computing with 12 hours battery life

The ASUS UL80Vt features an impressive 12-hours battery life*, thanks to the ASUS Power4 Gear Technology, which facilitates the deployment and usage of power according to the users' preferences in relation to the specific tasks that they need to perform. It also provides users with the option to turn off hardware devices to conserve even more energy, and works in conjunction with an Intel® Core™2 Duo processor for maximum energy efficiency.

UnLimited Portability: Stylishly Thin and Less than 1-inch Thick Profile

The ASUS UL80Vt is shrouded in a robust brushed aluminum lid which not only looks magnificent, but also helps in maintaining its stylish exterior day after day. OR Feast your eyes upon the ASUS UL80, with a profile measuring less than 1-inch. Its aluminum alloy structure accords you with style and grace as you make your way through the day. It fits effortlessly into your day bag, haversack or briefcase, and with the brushed aluminum design, it shrugs off scratches and abrasions, protecting its gorgeous exterior.
