

Canon PIXMA MX882

The PIXMA MX882 Wireless Inkjet Office All-In-One brings incredible quality, speed and ease of use to your business. Built-in Wi-Fi® lets you print and scan from any room in your home while you produce documents and photos with a 9600 x 2400 maximum color dpi, 1picoliter and a 5 individual ink tank system. Its Dual Function Panel provides streamlined controls and function buttons that transform into a keypad while in fax mode for easier operation. A built-in, fully integrated 35-sheet Duplex Auto Document Feeder means fast copying scanning and faxing of your originals so you can multi-task while the printer is at work. To increase home office efficiency and productivity, Built-in Auto Duplex Printing prints 2-sided documents without having to manually flip the pages. This can reduce your paper consumption by up to 50%. Additionally, Super G3 High-speed Fax and networkable Ethernet ensure efficient communication and thanks to Dual Color Gamut Processing Technology, your copies will maintain the integrity of the original while producing scans at 4800 dpi. You can also utilize various security features like password protected PDF's to confidentially create and distribute your most important files.

The MX882 also allows you to turn your office into a photo lab. Print beautiful, borderless photo lab quality photos up to 8.5" x 11" in size. Your photo printing options now also expand to Full HD video. Full HD Movie Print turns your favorite HD movie clips captured with compatible Canon EOS Digital SLR or PowerShot cameras into beautiful photo prints. Take full advantage of Canon's Wi-Fi® printing technology and print photos from compatible iPad, iPhone 4, 3G, 3GS, iPod touch and Android devices. Plus, you can enjoy additional computer-less printing via compatible memory cards, PictBridge and optional Bluetooth while conveniently viewing your images on a 3.0" LCD.
