

Canon Pixma iP100

Canon's stylish iP100 Mobile Printer travels with you, delivering outstanding photo print quality wherever you are. Thanks to a blazing sprint speed, you can have a beautiful 4 x 6 inch print in less than a minute. The iP100 is perfect for traveling photographers, vacationers making their own post cards, businessmen who need to make the perfect color presentation on the road, and anyone else who wants a high-quality print anywhere.

Don't let the small size fool you -- the iP100 prints at 9600 x 2400 dpi for lab-quality prints.

Outstanding Prints from a Tiny Device

At a compact 12.7 x 2.4 x 7.2 inches (WxHxD) and weighing in at a scant 4.4 pounds, the iP100 is a rugged, attractive device that is easy to slip into your briefcase or traveling bag. You can further increase the portability by adding the optional car adapter or battery kit.

Don't mistake compact for low-quality. The iP100 produces spectacular photos at 9600 x 2400 dpi. Canon's patented print head with 1,856 precision nozzles ejects ink at droplets as small as 1 picoliter for incredible photo realism and accuracy.

Together with the 5-color ink system, you are ensured the highest quality output. All without a long waiting: a photo lab-quality 4 x 6 inch borderless print takes about 55 seconds. For

printing documents, the iP100 can print black-and-white documents at up to 20 ppm and color documents at up to 14 ppm.

Print from Macs and PCs and Directly from Cameras The Canon PIXMA iP100 is compatible with Windows Vista/XP/2000 and Mac OS X v 10.2.8 to 10.5.x, connecting via a USB interface. Additionally, it also has a built-in IrDA interface and an optional Bluetooth interface, letting you print wirelessly from a PC, PDA or camera phone. The printer also supports the PictBridge interface for connecting compatible digital cameras and printing photos directly -- without a PC.
