

## Canon Pixma iP3600

---

You're going to love the results from this compact photo printer. Its new 5-color ink system –four dye-based inks and a pigment-based black ink – produces vivid colors and bold, black text. Patented print head technology lets you create long-lasting photos with resolution up to an amazing 9600 x 2400 color dpi. How fast? A photo lab-quality 4 x 6 inch borderless print takes only about 41 seconds.

*Just capture an image with a PictBridge ready digital camera/DV camcorder, then connect and print!*

picoliter using FINE Technology.

### **High Performance Ink Cartridges**

The two genuine Canon ink cartridges contain specially formulated inks for the highest possible quality. They're easy to use and to replace as needed.

### **Advanced Z-lid**

The unique Z-lid expansion top enables you to scan or copy bulky or thick items. It lifts approximately 3/4-inch vertically then lays down flat on the page for clear, complete copies or scans from edge to edge.

You can also print photos directly from a compatible digital camera or camera phone – no computer required! The two paper trays let you store both plain and photo paper, so you're always print-ready. And the included software features Auto Photo Fix, which corrects redeye and enhances your images.

### **Long-Lasting Beautiful Photos**

ChromaLife100+ system delivers vibrant photos that last up to 300 years.

### **Spectacular Resolution**

Maximum 9600 x 2400 dpi with microscopic droplets as small as 1

### **FINE Technology**

Canon Full-photolitho-graphy Inkjet Nozzle Engineering (FINE) uses a patented print head with 2,368 precision nozzles, injecting ink droplets as small as 1 picoliters. More nozzles = amazing images.

### **Dual Paper Trays**

Two-Way paper feeding for convenient plain and photo paper handling

### **Quick Start**

Powering up your printer is now faster than ever. After pressing the power button, you can begin inputting commands in approximately 2 seconds. Full operation is

even enabled in a shorter time now too.

### **Automatic Image Optimization**

Just one of the features on the included Easy-PhotoPrint EX software – Auto Photo Fix - optimizes your images for such factors as skin tone, white balance and brightness, and makes red-eye corrections.

### **Click-Connect-Print**

Just capture an image with a PictBridge ready digital camera/DV camcorder, then connect and print!
