Utilize 4800 x 1200 maximum color dpi firing at 2pl with the heralded PG-210 Black and CL-211 Color FINE Ink Cartridge System for great detail and a built-in, fully integrated 30-sheet Auto Document Feeder for fast copying & scanning of your originals so you can multi-task while you're in or out of the office.

advanced business machine and excellent photo lab all in one that can virtually fit anywhere.

Terrific Resolution

This level of quality is achieved by 4800 x 1200 maximum color dpi thanks to Canon Full-photolithography Inkjet Nozzle Engineering (FINE) with a patented printhead firing ink

The Super G3 High-speed Fax has a built-in memory to store up to 20 coded speed dials and 50 incoming pages for added efficiency. Scan, duplicate and distribute documents with professional quality thanks to Dual Color Gamut Processing Technology so your copies will maintain the integrity of the original. Plus, the MX330 has various security features like password protected PDF's so you can feel safe about the creation and dissemination of your most confidential files.

A 1.8 inch LCD allows for easy viewing and editing of images along with computer-less printing capabilities by way of PictBridge and optional Bluetooth. So, whether you're on a PC or Mac, you get an

droplets as small as 2pl. This delivers superb quality and detail in both your business documents and photos.

High Performance Ink Cartridges

These two genuine Canon ink cartridges contain specially formulated inks for great document and photo quality. One is a Black & White cartridge for laser-quality text and one is a multi-color cartridge for pictures. Both are easy to use and replace.

ChromaLife100+

This system combines enhanced FINE printhead technology with select new Canon photo papers for beautiful borderless photos that will last up to 300 years when stored in an archival-quality photo album.

Auto Document Feeder

The ADF holds up to 20 originals making it easier to copy, scan or fax multi-page documents.

Fully-Integrated Auto Document Feeder

Fully-Integrated Auto Document Feeder: The built-in 30 sheet Automatic Document Feeder (ADF) makes it easy to copy, scan or fax multiple documents without having to load them one at a time. Its full integration makes it easier to fit into tight spots and once it's loaded it lets you do well... Whatever you want.

1.8 inch LCD Screen

Easily view, select and edit your images for simple computer-free printing. No downloading needed, just pick your pic and print!

Dual Color Gamut Technology

Copy with confidence as this built-in technology automatically optimizes your originals so copies stay true to it time after time, copy after copy.

Auto Image Fix

This built-in technology is perfect for your home photo lab as it automatically categorizes your images into one of five types - Portrait, Scenery, Night Scenery, Snapshot with Scenery, and Snapshot with Night Scenery - then applies optimal image correction. For instance, it will automatically brighten faces that are backlit and under-exposed, and correct color cast to help ensure more accurate skin tones to help you produce gorgeous images.

QuickStart

Powering up your printer is now faster than ever. After pressing the power button you can begin inputting commands in approximately 2 seconds. So, full operation is possible in much shorter time.

Super G3 Fax

The business fax standard for color and PC facsimiles on plain paper meets the home office workhorse with 100 coded speed dials and up to 250 incoming pages to meet your every communication need.

PictBridge & Optional Bluetooth

Don't feel like using a computer? No problem. Thanks to a PictBridge connection you can also conveniently print photos directly from your digital camera, DV camcorder or camera phone while you select all the images that are fit to print on the LCD display. Plus, for short range wireless data transmitting you can print wirelessly with the optional BU-30 Bluetooth unit.
